

# Report - International Day of the Girl Child

Faculty of Education joyfully observed the International Day of the Girl Child on 11th October 2025. The event

aimed to create awareness about the United Nations' 17 Sustainable Development Goals (SDGs) among girl children and to inspire them to dream, learn, and lead with confidence. In alignment with the university's commitment to education, empowerment, and equality, student-teachers visited nearby Government Schools to conduct interactive awareness sessions. The SDG goals were meaningfully inculcated among the girl children to help them understand their vital role in building a sustainable and inclusive society. Through engaging activities, the girls were encouraged to connect global goals with local actions for community development. The sessions empowered them to become active contributors toward achieving equality, education, and well-being for all.

The program resonated with the theme, "Educate, Empower, and Elevate – Celebrate Girlhood," encouraging young girls to believe in their strength and potential.
