FACULTY OF ENGINEERING AND TECHNOLOGY DEPARTMENT OF INFORMATION TECHNOLOGY

TECH VOICE

VISION

- To create technology proficient and ethically enriched IT professionals through holistic and state of art curriculum.

MISSION

- To update the IT skills of students and faculty adapting recent technology developments in the curriculum as recommended by academicians, industry experts and alumni.
- To establish equipped laboratories to present excellent education in the conventional and modern vicinity of Information Technology.
- To create responsible IT professionals with ethical values and social responsibilities. To stimulate entrepreneurial mind-set among the students and enhance competency through regular industrial exposure.
- To utilize the family of alma mater through strong interaction and networking making them instrumental for development of academic and industrial linkage.

PROGRAM EDUCATIONAL OBJECTIVES[PEO'S]

Graduates will be able to:

- PEO 1: Excel by taking up key roles in IT and related industries, Government organizations and academia through strong leadership skills.
- PEO 2: Undertake higher studies and/or research in the field of Information Technology, management or other related domains.
- PEO 3: Develop innovative products and implement novel solutions to real world problems in IT and related interdisciplinary areas.
- PEO 4: Understand the societal impact of IT services and use their skills in an ethical, responsible and professional manner.
- PEO 5: Be updated with continuous learning and have a global perspective, so as to remain current in their profession while meeting the needs of the industry and nation at large.

PROGRAM SPECIFIC OUTCOMES[PSO'S]

- Ability to augment the understanding of broad themes of STEM using Information Technology.
- Ability to analyse, design, develop and implement sustained IT solutions as a team to improve the productivity of the organization with social and economic constraints.
- Ability to apply ethical decision making, use IT industry recognized best practices and standards in the development, implementation and management of IT system integrating multiple domains.
- Ability to understand and update current trends in web technology, distributed infrastructure, data management, software engineering, system engineering and secured applications.

HOD'S DESK

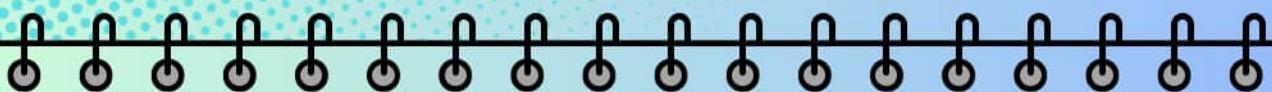

It gives me great pleasure to give my best wishes to "TECH VOICE", a newsletter from Department of Information Technology of Dr.M.G.R Educational and Research Institute. It is a technical platform to bring out the hidden talents of students and faculty. The students and faculties of

department are always proactive in taking initiatives in technical, cultural and social events. I hope that this newsletter will serve the purpose of reflecting all activities of department and it will inspire others to do their best. Wishing you all the best. I take this opportunity to congratulate the students editorial team and our staff editors Dr.Dahlia Sam and Mr A.Kameshwaran for their great effort to make this news letter as a reality. Also I invite the readers of "TECH VOICE" for their contribution and suggestions for the forthcoming issues. I wish good luck to the entire team of editor and look forward for your kind patronage to our newsletter.

Speaker: Mr . Vishnu Ram Venkataraman, Vice President, Engineering at Credit Karma, San Francisco, California, United States.

ALUMNI CORNER

Nanda Kishore KV

**Assistant Consultant at
Tata Consultancy Services**

Batch : 2002-2006

Very happy and grateful to share my four years journey at MGR. Four years of engineering at MGR University have been full of learnings which was truly the foundation of my career. I came to this University with a dream of becoming an IT professional. Every semester has been a step towards achieving my dream. We the students had lot of opportunities to explore our talents through numerous department activities. This includes organizing various events within the campus or representing our University at inter college competitions. Our Head of the department and all the department faculty were always friendly and encouraging. MGR University has played a major role in shaping me into who I am today. I will always cherish those moments in my life. I am so glad and proud to be an alumni of this great institute.

PATENT:

Applicants : K Sujatha, V. Srividhya, A Kalaivani, M. Sujitha, Subbiah Swaminathan, C Tamilselvi, A. Ganesan, S. Nivetha, Kamatchi C

Title of Design: IOT Based Wearable Health Monitoring Device

Indian Patent Application No.: 377210-001

Date of Registration: 11/11/2023

>>> Student Achievements:

- Himanth.B of III Yr** won 1st prize and a cash award of Rs. 1000 in BIS Quiz conducted by Mayiladudurai Book Fair
- Sharvathan Of II year** Secured 2nd place in Mono Acting held at Chengalpattu Medical College.

STUDENT CORNER

Robotic Process Automation (RPA):

Robotic Process Automation (RPA) has emerged as a game-changer in the realm of business operations, offering a streamlined approach to repetitive and rule-based tasks. RPA technology employs software robots or "bots" to automate mundane tasks, allowing employees to focus on more complex and strategic activities. One of the key benefits of RPA is its ability to improve operational efficiency by reducing human errors and processing time. Tasks such as data entry, invoice processing, and report generation can be automated with precision and accuracy, leading to faster turnaround times and cost savings for organizations.

Edge Analytics:

Edge Analytics is a cutting-edge technology that revolutionizes how data is processed and analyzed. By bringing data processing closer to the point of data generation, Edge Analytics reduces latency and enables real-time insights. This approach is particularly valuable in applications such as autonomous vehicles, industrial automation, and IoT systems, where immediate decision-making is crucial for operational efficiency and safety. Moreover, Edge Analytics enhances security and privacy by minimizing data transfer over networks, making it a preferred choice for organizations looking to protect sensitive information and comply with data regulations.
