Department of Electronics and Communication Engineering

Event Title	Subject Lecture on " Recent Trends in Digital communication"		
Objective of Event	To provide knowlwdge of understanding modulation and to emphasize modulation to transmit the signals through space to long distances, we have removed the need for wires in communication systems. The technique of modulation helped humans to become		
Chief Guest /Speaker Details	Dr.V.Manonmani, Associate professor, Dr.MGR educational and research institute		
Date	31/01/2024	Time	02.00 PM to 04.00 PM
Venue	VLSI Lab	No. of Participants	100

REPORT

TITLE

Recent Trends in Digital communication

CONTENT

The Department of ECE conducted a subject lecture on the topic 'Recent Trends in Digital Communication' on January 31st, 2024 at 2 p.m. The target audiences were the students of III ECE. The speaker for the event was Dr.V.Manonmani, Professor, Department of ECE. The lecture started with the essence of the requirement for modulation. The speaker has stressed upon the requirement of data and signals which in turn perceived as information are sent from one location to another in fraction of seconds in the current day. This is possible with the rapid development in the field of Electronics and Communication Engineering. Further, highlighting on the requirement of digital communications, the lecture ended with the introduction to the basics of cellular communications and a questionnaire from the students is dealt at the last. Mrs.P.Jegadeeshwari, Assistant Professor organized this event under the guidance of Dr.U.Jayalaxumi, Assistant Professor and Head, Department of Electronics and Communication Engineering. All the participants have commended the lecture and has given a positive feedback. The Department thank our Honourable President for his support and all Executives for their encouragement in organizing the event.
