REPORT

TITLE

Professional Society Event Report on “Presentation on Standards of building materials-BIS”

CONTENT

The objective of the Professional Society Event on “Presentation on Standards of Building Materials - BIS” is to provide an in-depth understanding and discussion on the standards set by the Bureau of Indian Standards (BIS) for building materials. The event aims to inform the students about the latest BIS standards for various building materials, including their importance, scope and application in construction projects. The Professional Society Event on “Presentation on Standards of Building Materials- BIS” likely covered the following key outcomes:

1. In-depth Understanding of BIS Standards:
  - ⊗ Participants gained a comprehensive understanding of the Bureau of Indian Standards (BIS) regulations and standards for building materials
  - ⊗ Discussions on the importance of adhering to these standards to ensure safety, quality, and reliability in construction projects
2. Updates on Latest Amendments and Revisions:
  - ⊗ The event provided updates on the latest amendments and revisions in BIS standards, ensuring that professionals are aware of the current requirements and changes
  - ⊗ Highlighted the implications of these changes on ongoing and future construction projects
