Department of Civil Engineering

Event Title	Subject Lecture on Surveying		
Objective of Event	The source Separated non biodegradable (Dry Waste) collected on every Wednesdays for recycling		
Chief Guest /Speaker Details	Dr.RA.B.Depaa, Deputy HoD, Dr.M.G.Reducational and research institute		
Date	19/10/2023	Time	11:00 AM to 12.00 PM
Venue	Civil Smart Room	No. of Participants	50

REPORT

TITLE

Subject Lecture on Surveying

CONTENT

Surveying and leveling is a measurement process that determines the height of the level and the distance of an area with another elevated surface. If no such work done is done at the source then, segregation is done at the waste processing facility of GCC at Basin Bridge road. Collection of Solid Waste at Source Collection of Municipal Solid Waste at source (Door to door collection) has been implemented in all Zones. About 95% of the households were covered under this programme. Source Separation Source separation is promoted to reduce the waste coming to the Landfill, thereby increasing the life time of the Landfills. The bio-degradable waste (Organic Waste) is being composted in a decentralized manner at ward level by Ordinary and Vermi compost plants and Bio methanation plants and manure used for GCC parks and greeneries besides open sale to public also. Source separated thin plastics are subjected to shredding in all units / zones and it has been used for laying Bituminous road laying. The source Separated non biodegradable (Dry Waste) collected on every Wednesdays for recycling.
