Report: Celebration on International Girl Child Day

The Faculty of Education observed the International Day of the Girl Child on 9th October 2026 by organising awareness sessions in nearby Government Schools. B.Ed - II year students sensitised girl children to the United Nations' 17 Sustainable Development Goals (SDGs), emphasising education, gender equality, health, empowerment, and environmental sustainability. Through interactive activities, the girls were encouraged to dream big, build self-confidence, and become responsible contributors to a sustainable and inclusive society.

The programme reflected the reinforcing the importance of equal opportunities and empowerment for every girl child.
